BRAND USAGE RULES & BEST PRACTICES

DO: Pair Executive Navy (#02295B) with Gold (#FDA700) CTAs for high visual impact and WCAG compliance.

DON'T: Use pure Gold (#FDA700) text on Light Canvas (#D6D6D6) backgrounds due to low contrast.

DO: Use Charcoal Slate (#333F3F) for body copy to maintain readability without harsh pure black contrast.

DON'T: Mix Modern chemical tartan colors with Weathered muted tones in a single graphic component.
